A NEW SIX AT A PRICE WITHIN THE REACH OF MILLIONS

On Saturday, Buick will present the new Marquette—designed by Buick engineers and built in Buick factories. Marketed as an additional member of the Buick family, it will in no way affect Buick itself. Buick will continue to express the policies that made it the leader of the fine car field for the past quarter-century. In the smart, comfortable bodies of the Marquette you will recognize the fine hand of Fisher design. In its balance and poise you will see experienced engineering. And

in performance—that final standard by which all cars are judged—you will find the Marquette leading its price class by an impressive margin. Be on hand when this eventful new car is shown Saturday. See what a remarkable new automobile Buick has produced at a price within the reach of millions.

Again the corn sugar interests are attempting to destroy the Pure Food Law by legislation at Washington. Representative Cole of Iowa introduced a new corn sugar bill in the House of Representatives on April 29, 1929, as follows:

"To provide for the regulation of the use of certain sugars."

Be it enacted by the Senate and House of Representatives of America in Congress assembled, That for the purposes of the Food and Drug Act, approved June 30, 1906 (Thirty-fourth Statutes at Large, page 768), as amended, destrose, a sugar derived from corn, and levulose, a sugar derived from the Jerusalem artichoke, shall not be deemed misbranded if sold or offered for sale in sealed packages bearing an appropriate accurate, and conspicuous declaration of the origin of the sugar, such as destrose, made from corn, or levulose, made from artichoke, or corn sugar, or artichoke sugar; nor shall any manufactured or prepared food product be deemed misbranded if such destrose and levulose be used therein as ingredients without declaration on the label of their presence.

This bill if enacted into law would legalize the adulteration of honey, of maple syrup with corn sugar, and thus take the honey and maple syrup business of the country out of the hands of beekeepers and farmers, and put it into the hands of manufacturers of corn sugar and the large packers of adulterated honey and syrup.

If you are a bee keeper, or the producer of maple syrup are interested in the preservation of a market for honey or maple syrup, the maintenance of the Pure Food Law, and a square deal for both farmers and consumers of food, write three letters to Washington at once; one to your Representative, and one to each of the two senators from your state, protecting against H. R. 2158.

Unless thousands of protests go to Congressmen at once the bill may be jammed through before honest Congressmen discover the trick of hiding away on the second page for the evil intent of the bill. When you write be sure to call attention to the last clause of the bill on the second page, and ask your Congressman to fight this measure to the last ditch.

## After Reading Some Of My Stuff

My friends jokingly tell me that I could make more money writing ads than I can running a repair shop. Now this ad writing is no joke, but I am not so sure but perhaps my friends are right, because if I got as much out of this ad writing as it costs me to get them printed, that will be some income.

Of course we never have done much repairing along these lines, but if you have some Crooked, Bent or Broken Down Ads, Sermons, Public Speeches, After-Dinner Talks, or anything along that line that aren't working right, bring them in, we have repaired darn near everything else and perhaps we can get them into running order.

Just now, we are repairing Auto Bodies, Fenders, Frames, etc., and installing some auto glass.

*famous among* FAMOUS EXPERTS ON FOOD  
*and entertaining* "now presents to smart hostesses  
the new FRO-JOY 2-FLAVOR PINT PACKAGE

Alice Bradley is the renowned Cooking Editor of the Woman's Home Companion, and Principal of Miss Farmer's School of Cookery.

**R**IGHT hostess—here at last is a modern answer to the old disturbing question of what to offer your party guests, or your bridge guests, or your own family—tonight, or tomorrow, or any time!

Now, each week, Fro-joy Ice Cream comes in a new 2-flavor pint package—with unusual flavor blends by Alice Bradley—out-of-the-ordinary combinations. Each week's combination is smart—modern—selected with a canny eye to harmonized tastes and harmonizing colors. And so enticingly, lusciously good!

And each week's package contains a new leaflet—bringing you expert advice on entertaining from Alice Bradley herself—menus,

refreshment suggestions, all sorts of tips and pointers that can help mark you as a talented hostess.

And remember that these Fro-joy 2-flavor treats bring health as well as delightful pleasure. For this package reaches a new high pinnacle of Fro-joy creamy goodness—a new pinnacle for all ice cream, no matter where you buy or what you pay.

Fro-joy is pure—scientifically made by experts—each package wrapped three times and sealed for complete protection. And Fro-joy is health-giving as few foods are—concentrately full of the famous Fro-joy "Youth Units,"—phosphorus, calcium (lime), and organic iron, which give stamina, strength, youth.

GENERAL ICE CREAM CORPORATION.

## THIS WEEK

THE NEW FRO-JOY 2-FLAVOR PINT PACKAGE CONTAINS

### CARAMEL NUT & FROZEN PUDDING

"Everybody likes caramels and most folks like them better when they contain nuts. You will find the combination of flavors in ice cream equally good, and when the delicate flavor of frozen pudding is added, the result is most intriguing."

—ALICE BRADLEY

And Fro-joy is always available in pint packages in vanilla or chocolate or both combined, and in Neapolitan, which is vanilla, chocolate and strawberry. A constant favorite is vanilla, served with berries, chocolate sauce, or sliced fruits.

"Youth Units"—What are they?—"Youth Units" are food elements that, when eaten regularly, have the power to rebuild and rejuvenate cells. Only foods which contain the essential vitamins and the vital mineral salts—soluble iron, calcium, and phosphorus—are capable of keeping cells young. Many people age prematurely because their diets do not include a sufficient amount of cell-rejuvenating "Youth Units."

The richest of all foods in "Youth Units" is milk—except for pure ice cream, such as Fro-joy. And the new Fro-joy 2-flavor pint package contains three times as many "Youth Units" as a pint of milk!
